

Adirection is also something one gives. When you give an ordering or instruction (especially a set of instructions guiding the use of equipment) you give directions.

How do we know which way to turn to reach our destination?

One offer an approach to how bodies take shape.

It is by understanding how we become orientated in new sets of dis-orientation that we might learn what it means to be orientated in the first place. Kant, in his classic essay "What Does It Mean to Orient Oneself in

# ESSENTIATION
